#### Notice

(Civil and Environmental Engineering, Applied Chemistry, Electrical and Electronic Engineering) An applicant who lives in a foreign country at the time of applying and wish to take an examination using internet-based interview has to make contact with Education Support Division (Engineering Team, e-mail: kougakum@stu.ehimeu-u.ac.jp) in advance (until 14 June(Fri) 2019).

An applicant who meets one of the following requirements will be able to take an examination utilizing internet-based interview.

• A graduate and/or prospective graduate of a college or university that has an official academic exchange agreement with Ehime University.

• A graduate and/or prospective graduate of a college or university that has collaborative research program/s with the faculty member/s of the Graduate School of Science and Engineering, Ehime University can apply.

#### 3. Application Eligibility

An applicant to this program must be a non-Japanese national eligible to stay in Japan as a student under the state regulations of immigration and refugee control, and must meet one of the following requirements.

- (1) Must have acquired or should be expecting to acquire by September 2019 a bachelor degree.
- (2) An applicant, who has had formal education outside Japan, must have completed or should be expecting to complete 16 years of formal education by **September 2019**.
- (3) Those who have earned or expect to earn by **September 2019**, a bachelor's degree or equivalent by completing an academic program of 3 years or more at a foreign university or foreign educational institution (limited to the institutions whose overall quality of education and research has been evaluated by an external body certified by the country's government or its related agency, or the institutions designated as equivalent by the Minister of \* MEXT).
- (4) An applicant, who has had formal education outside Japan, must have completed 15 years of course-based education with excellent grades and must be recognized by the Graduate School as eligible to apply for the program.
- (5) Recognized by the Graduate School through a separate evaluation for admission eligibility as being in possession of academic abilities equivalent to or greater than those of a bachelor degree holder, and must be 22 years old or above at the time of admission.

\*MEXT=Ministry of Education, Culture, Sports, Science and Technology

(*Note:* If you meet one of the above conditions, applicant to School of Engineering please contact with the each Department Chair or Education Support Division (Engineering Team), applicant to School of Science please contact with Education Support Division (Science Team), until **18(Thu) July 2019**. (if you meet either requirement (3) (4) or (5), please contact the Graduate School Office by **7(Fri) June 2019**) before sending us your application documents.)

In addition, those who apply to the above (4) (5), please submit the following documents by the deadline.

#### (Pre-application Admission Eligibility Assessment for Requirement (4) above)

An applicant willing to apply to this program under the Application Eligibility requirement (4) above must also submit/send the following documents in addition to the documents listed on page 4 of this 'Application Guidelines' to the address given on page 1 by the application deadline.

① Documents to be submitted/sent:

| Letter of          | Officially sealed Letter of Recommendation prepared by the                                    |  |  |  |  |
|--------------------|---|--|--|--|--|
| Recommendation     | college/university attended (provided with the application material;                          |  |  |  |  |
|                    | <i>Form#2</i> )   |  |  |  |  |
| Grade Sheet/s or   | Officially sealed copies of grade sheets or transcripts of courses                            |  |  |  |  |
| Transcript         | attended, issued by the university or college of affiliation; with clear                      |  |  |  |  |
|                    | indication of compulsory subjects as well as all other subjects attended                      |  |  |  |  |
|                    | up until 3 <sup>rd</sup> year or 6 <sup>th</sup> semester of the course and the corresponding |  |  |  |  |
|                    | credit hours  |  |  |  |  |
| Course curriculum  | The course curriculum details of the subjects attended at the                                 |  |  |  |  |
| of the             | college/university of the applicant's affiliation   |  |  |  |  |
| college/university |   |  |  |  |  |
| attended           |   |  |  |  |  |

② Submission deadline: **14 June 2019** (Fri)

Must be either submitted in person from 9:00AM to 5:00PM on weekdays, or received via mail (postal service) by 14 June 2019 (Fri).

#### (Pre-application Admission Eligibility Assessment for Requirement(5) above)

An applicant willing to apply to this program under the Application Eligibility requirement (5) above must submit/send the following documents to the address given on page 1 of this 'Application Guidelines' by the deadline below.

- ① Documents to be submitted/sent:
  - 1) Admission eligibility assessment sheet (provided with the application material; Form#3)
  - Reason for admission eligibility assessment request (*provided with the application material; Form#4*)
  - 3) Graduation Certificate obtained from the last-attended educational institution.
  - 4) Other reference materials for evaluation (such as, research paper/s, patent certificate/s, etc.)
  - 5) Self-addressed return envelope affixed with an 82-yen stamp (for notifying the result of application eligibility assessment)
- ② Submission deadline: 14 June 2019 (Fri)
   Must be either submitted in person from 9:00AM to 5:00PM on weekdays, or received via mail (postal service) by 14 June 2019 (Fri).
- ③ Admission eligibility assessment:

The admission eligibility assessment will be conducted on the basis of the submitted/sent documents, and the applicant will be notified of the result by **18 July 2019** (Thu). Please note that the submitted/sent documents will not be returned in any case, but if the admission eligibility is accepted, the applicant will have to submit all required documents listed on page 4 of this 'Application Guidelines.' Moreover, the result of this particular admission eligibility assessment will only remain valid for an application to **2019** Selection Program.

#### 4. Selection Procedure

The selection for admission will be made on the basis of assessment of submitted documents and performance in interview (including an oral test). Applicants for the School of Science (except Mathematical Science and Molecular Science) must also complete a written examination. The details of the interview and written test are given in the following table.

|   | Date (day)          | Interview and written test               | Course                                     | Time    |  |  |
|---|---------------------|--|--|---------|--|--|
|   |                     | subjects                                 |  |         |  |  |

| Place | Faculty of Science, Ehime University |  |
|-------|--------------------------------------|--|
|       | 2-5 Bunkyo-cho, Matsuyama City       |  |

\*The extent of questions in specialized subjects of each course is given on Page 7 of this guideline.

- \*\* There is no English examination in the' Physics' course, as we use converted scores of the TOEIC L&R.
- \*\*\* There is no English examination in the 'Earth's Evolution and Environmental' course, 'Molecular Science' and 'Biology and Environmental Science' course, as we use converted scores of the TOEIC TOEIC L&R or TOEFL iBT.

(Note: The details of the interview will be explained on the day of the entrance test.)

#### 5. Application Material and Documents to be Submitted

- (1) Application form (including Personal Identification Card and Admission Card) (*provided* with the application material; Form#1)
- (2) Officially sealed copies of Grade Sheet/s or Transcript/s of Bachelor Degree course officially issued by the graduating university or college
- (3) Bachelor Degree Certificate or Certificate of expected date of graduation officially issued by the graduating university or college
- (4) A 30-mm wide and 40-mm high (30mm×40mm) photograph: It must show the applicant's upper body and face, and have been taken within 3 months of the date of application; applicants should be facing the camera with no hat/cap; to be affixed on the Personal Identification Card
- (5) An application processing fee of 30,000 yen will have to be paid through the Post Office or Postal Bank (Note: it cannot be paid through any other banks or financial institutions, and an ATM may also not be used for transferring the amount), and the payment slip (with the date of payment) must be pasted on 'Application Processing Fee Payment Certificate' provided with the application forms. Please note that except for the condition stated on page 8 under '9 (3) Return of Application Processing Fee', the application processing fee will not be returned.
- (6) Admission Card return-mailing envelop (If you wish your Admission Card to be mailed to your address, please paste a **362-yen** postal stamp and self-address the envelope provided with the application material.)
- (7) A copy of Residence Card (If an applicant is in Japan at the time of application, such a certificate is issued by the city or town of residence.)
- (8) Physics course

Please submit the original transcript of TOEIC L&R and a copy (A4 size) of it. We will take it as your English score after conversion. Please prepare an Official Score Certificate of TOEIC L&R that was issued in or after **April 2017**. You cannot use the transcript of Institutional Program, for example TOEIC IP. If you cannot submit the original transcript of TOEIC L&R and a copy of it due to unavoidable circumstances, you can submit those on the day of the examination. In that case, please contact us by email at the address on page 1.

(9) Earth's Evolution and Environmental course, Molecular Science, Biology and Environmental Science course

Please submit the original transcript of TOEIC L&R or TOEFL iBT and a copy (A4 size) of it. We will take it as your English score after conversion. Please prepare an Official Score Certificate of TOEIC L&R or Official Score Report of TOEFL iBT that was issued in or after **April 2017**. You cannot use the transcript of Institutional Program, for example TOEIC IP. If you cannot submit the original transcript of TOEIC L&R or TOEFL iBT and a copy of it due to unavoidable circumstances, you can submit those on the day of the examination. In that case, please contact us by email at the address on page 1.

#### 6. Marks Distribution, Marking, Evaluation Criteria, and Selection Criteria

#### (1) Marks Distribution:

<School of Engineering>

| Course                                  | Interview (including Oral Test) | Total |
|---|---------------------------------|-------|
| Mechanical Engineering                  |                                 |       |
| Civil and Environmental Engineering     |                                 |       |
| Materials Science and Engineering       | 100                             | 100   |
| Applied Chemistry                       | 100                             | 100   |
| • Electrical and Electronic Engineering |                                 |       |
| Computer Science                        |                                 |       |

X The submitted grade sheet/s or transcript/s will be evaluated in A, B, or C level, and will be considered in final selection.

<School of Science>

| Course                | Interview (including Oral Test) | Total |
|-----------------------|---------------------------------|-------|
| Mathematical Sciences | 100                             | 100   |

\* The submitted grade sheet/s or transcript/s will be evaluated at A, B, or C levels, and will be considered in final selection.

| Course  | Specialized | English | Interview (including | Total |
|---|-------------|---------|----------------------|-------|
|   | Subjects    |         | Oral Test)           |       |
| Physics                                       |             |         |                      |       |
| • Earth's Evolution and                       |             |         |                      |       |
| Environment                                   | 200         | 100     | 100                  | 400   |
| <ul> <li>Biology and Environmental</li> </ul> |             |         |                      |       |
| Science                                       |             |         |                      |       |

X As Physics course, scores on the TOEIC L&R is used after conversion. The following is the way of conversion. Your English score is 100 if the score is more than 100 after conversion by these ways.

[English score after conversion] = [scores on the TOEIC L&R] /7

\* As Earth's Evolution and Environment course, scores on the TOEIC L&R or TOEFL iBT are used after conversion. The following is the two ways of conversion. Your English score is 100 if the score is more than 100 after conversion by these ways.

[English score after conversion] =  $0.2 \times [\text{scores on the TOEIC L&R}] - 30$ [English score after conversion] =  $100 \times [\text{scores on the TOEFL iBT}] / 120 + 20$ 

\* As Biology and Environmental Science course, scores on the TOEIC L&R or TOEFL iBT are used after conversion. The following is the two ways of conversion. Your English score is 100 if the score is more than 100 after conversion by these ways.

[English score after conversion] = [scores on the TOEIC L&R] /7[English score after conversion] =  $100 \times [scores on the TOEFL iBT] / 120 + 20$ 

| Course             | Grade sheet/s or<br>transcript/s | English | Interview (including<br>Oral Test) | Total |
|--------------------|----------------------------------|---------|------------------------------------|-------|
| •Molecular Science | 100                              | 100     | 100                                | 300   |

X As Molecular Science course, scores on the TOEIC L&R or TOEFL iBT are used after conversion. The following is the two ways of conversion. Your English score is 100 if the score is more than 100 after conversion by these ways.

[English score after conversion] = [scores on the TOEIC L&R] /7[English score after conversion] =  $100 \times [scores on the TOEFL iBT] / 120 + 20$ 

|                       | Course  | Basis for evaluation   | Marking, Evaluation Criteria (General   |
|-----------------------|---|--|---|

#### (2) Marking and Evaluation Criteria:

|                       | Course   | Decision criteria   | Method of ordering<br>applicants who are<br>awarded the same score      |
|-----------------------|--|---|---|
| School of Engineering | <ul> <li>Mechanical<br/>Engineering</li> <li>Civil and<br/>Environmental<br/>Engineering</li> <li>Materials Science and<br/>Engineering</li> <li>Applied Chemistry</li> <li>Electrical and<br/>Electronic Engineering</li> <li>Computer Science</li> </ul> | Will be based on the interview<br>(including oral test) score and<br>grade sheet/s or transcript/s.<br>However, if one of the<br>following conditions arises,<br>the applicant will be<br>considered disqualified.<br>(1) The interview (including<br>the oral test) score is less than<br>$1/3^{rd}$ , (2) The level of<br>evaluation of grade sheet/s or<br>transcript/s is 'C' | A tie will occur betwee<br>applicants who are<br>awarded the same score |
| School of Science     | Mathematical Sciences  | Will be based on the interview<br>(including oral test) score.<br>However, if one of the<br>following conditions arises,<br>the applicant will be<br>considered disqualified.<br>(1) The interview (including<br>the oral test) score is less than<br>$1/3^{rd}$ , (2) The level of<br>evaluation of grade sheet/s or<br>transcript/s is 'C'                                      | A tie will occur betwee<br>applicants who are<br>awarded the same score |
| S                     | <ul> <li>Physics</li> <li>Earth's Evolution and<br/>Environment</li> <li>Molecular Science</li> <li>Biology and<br/>Environmental Science</li> </ul>   | Will be based on the total<br>marks acquired in the<br>evaluation process.  | A tie will occur betwee<br>applicants who are<br>awarded the same score |

Separate Table for Extent of Questions (School of Science) in Specialized subjects for the written examination

| Course Name                             | Subjects for examination   | Remarks  |
|---|--|--|
| Physics                                 | <ul> <li>Mechanics</li> <li>Electromagnetism</li> <li>Statistical and Thermal Physics</li> <li>Quantum Mechanics</li> </ul>  |  |
| Earth's<br>Evolution and<br>Environment | <ul> <li>Petrology</li> <li>Mineralogy</li> <li>Geology</li> <li>Paleontology</li> <li>Geophysics</li> <li>Physical properties of earth interior</li> <li>Oceanography</li> <li>Biology</li> </ul> | A total of eight questions will be asked<br>in the examination: two from petrology<br>and mineralogy, two from geology,<br>paleontology,-two from physical<br>properties of earth interior and<br>Geophysics, one from oceanography, and<br>one from biology. Any 4 questions will<br>have to be answered. |

| Biology and  | • Biology (Molecular Biology, Cell  | A total of 6 questions will be            |
|--------------|-------------------------------------|---|
| Environmenta | Biology, Morphology, Physiology,    | presented: one each from chemistry        |
| 1 Science    | Developmental Biology, Genetics,    | and earth science, four from the          |
|              | Ecology, Environmental Biology) and | chapter specified in the reference        |
|              | Related Sciences, such as           | book on biology (for the questions        |
|              | Biochemistry and Earth Science      | range, please refer to the following      |
|              |                                     | website.                                  |
|              |                                     | http://www.sci.ehime-u.ac.jp/wp/ne        |
|              |                                     | ws_info/1427/) Choose two from            |
|              |                                     | above them and answer. In addition,       |
|              |                                     | as a third question, it is to write about |
|              |                                     | the topics that you would like to study   |
|              |                                     | after enrollment, its background, how     |
|              |                                     | to approach to the problem, the           |
|              |                                     | expected outcome and significance.        |
|              |                                     |   |
|              |                                     |   |

#### 7. Admission Formalities

- (1) Admission Date and Entrance Ceremony: The entrance ceremony will take place on 24(Tue) September 2019. However, according to the academic rules of this university for those whose admission eligibility is valid only after 24 (Tue) until 30 (Mon) September 2019, the admission date will be 1 (Tue) October 2019.
- (2) The following are necessary at the time of admission.
  - 1) Admission Fee of **282,000 yen**
  - 2) Graduate school-specified admission forms/papers
- (3) Admission Formality Period: The admission formalities will take place on 4 (Wed) to 10(Tue) **September 2019** from 9:00AM to 5:00PM(except for Saturday, Sunday).

#### 8. Admission Fee, Tuition Fee, and Miscellaneous Charges for the First Year

- (1) Admission Fee and Tuition Fee: Admission Fee: 282,000 yen (to be paid at the time of admission formality) Tuition Fee: First Semester 267,900 yen; Second Semester 267,900 yen (Annual amount: 535,800 yen)
- (2) Miscellaneous Charges: A few thousand yen will have to be paid for miscellaneous purposes.
- **Notes:** 1. The Tuition Fee has to be paid after admission, so successful applicants will be notified of the payment period at a later date.
  - 2. If a current student's tuition is revised, a new recalculated fee will be applicable.
  - 3 . A system to waive the Admission Fee as well as Tuition Fee is available, but it is only available to those who have excellent academic records and face economic hardship to pay these amounts or come across some special conditions such as a severe impact of natural disasters. Depending on the extent of economic hardship or impact of disasters, partial or full waiver of the above fees through necessary selection procedure is possible. Additionally, a system of late payment of the above fees is available.

#### 9. Miscellaneous

(1) The 'Application Guidelines' (including the Application Forms) can be obtained through postal service. Please send a self addressed and stamped (380 yen, within Japan) envelope (33 cm x 24 cm) to the Graduate School Office (given on page 1). You must indicate on the

envelope by red-inked pen that 'Request for Application Material for September 2019 Entrance.'

- (2) After receiving the application documents, no changes will be allowed in the application information or submitted documents under any conditions. The submitted documents and application forms cannot be returned.
- (3) Return of Application Processing Fee: It can be returned only if one of the following is true.
  - ① Application Processing Fee was paid but the application documents were not sent/submitted
  - ② Mistakenly paid the Application Processing Fee two or more times, or paid an amount greater than the required amount of 30,000 yen
  - ③ Sent/submitted the application documents, but the application was rejected

#### (Requesting for the return of the Application Processing Fee)

In case of **condition ()or ()a**bove, please contact us at the address below. We will send you a 'Request for Return of the Application Processing Fee' form, which you will have to fill out and send back to us by post. In case of **condition (),** however, we will send you the 'Request for Return of the Application Processing Fee' form along with your application documents, which you will have to fill out and send back to us by post.

*Communication Address:* The External Payment Affairs Team Financial Planning Division Finance Department, Ehime University 10-13 Dogo-Himata, Matsuyama 790-8577, Ehime, JAPAN Tel: +81-(0)89-927 9074

- (4) If the information in the application forms or application documents is found to be wrong, the permission to enter the Graduate School will be cancelled and the admission will be denied even after the certificate of permission to enter has been already issued.
- (5) Privacy Policy (Use of personal information): Any personal information provided in application forms such as names and addresses is solely for processing applications, contacting applicants if an application document is incomplete, conducting entrance examination, notifying successful applicants, and sending admission procedure documents. If an application document is incomplete, Ehime University may notify the applicant's guardians or school to request the document be promptly amended and resubmitted. It is also used for academic affairs after enrollment (student registration, educational guidance), student support services (health-care management, scholarship applications), tuition administration, and to conduct surveys and research (improve entrance examinations, study and analyze application trends). The personal information will not be used for any other purpose and will not be provided to third parties
